**SCHEDULE SES  
SUPPLEMENTAL ELECTRIC SERVICE**

PAGE 1 OF 1

**APPLICABILITY:**

Any customer served under any of Company's standard rate schedules who maintains and operates an electric generating plant and who desires Company to supply firm electric service, which is supplemental to customer's own generation.

The terms of the rate schedule under which customer is taking service are modified only as follows:

**TERRITORY:**

Applies to all service area of the Company in New Mexico.

**MINIMUM BILL:**

|                   |         |
|-------------------|---------|
| Per KVA per Month | \$18.00 |
|-------------------|---------|

**DETERMINATION OF KVA:**

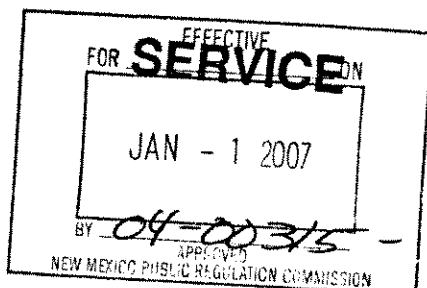

The initial amount of load in KVA which customer requires and Company agrees to furnish. Should customer require supplemental electric service in excess of the initial amount of load contracted for, the maximum amount required shall be used for billing purposes for 12 consecutive months. Requirements in excess of the initial amount of load contracted for will be determined, at Company's option, either by connected load count or measured by meter as the average KVA supplied during the 15 minute period of maximum use, but in no event shall the minimum contracted KVA be less than 5 KVA.

**SPECIAL TERMS AND CONDITIONS:**

Customer will provide at his own expense and subject to approval by Company the protective devices required to connect to the Company's facilities. Service under this rate is special and Company will not be obligated to furnish such service unless it presently has sufficient electric capacity available to provide the amount of service required. This tariff schedule governs and supersedes all contracts or agreements between the Company and any of its customers served under this tariff schedule. Any service provided under this tariff schedule is further subject to the Company's rules and regulations on file with the New Mexico Public Regulation Commission.

Contract for not less than one year must be executed by customer.
