35B – Large Power Service >=3MW	\$0.0000138 per kWh	X
36B – SSR – Renewable Energy Resources	\$0.0000040 per kWh	X

ANNUAL TEP ADJUSTMENT: Beginning in 2023, PNM will make an annual filing with the Commission by the last day in February, accompanied by an Advice Notice and supporting testimony, to adjust the TEP rate for the upcoming twelve (12) months. The annual TEP rate adjustment will go into effect with the first billing cycle in May.

DURATION OF THE RIDER: This rider shall be in effect until replaced or canceled by the Commission.

RULES AND REGULATIONS: In addition to the TEP rate described in this rider, all specifics of service and monthly charges for electric service under the customer's regular rate schedule apply. Where they are not inconsistent with this rider, the Company's Rules and Regulations are a part of this rider as if fully written herein.
