<u>APPLICABILITY</u>: The rates on this Schedule are available for single-phase and three-phase service for commercial, business, professional, small industrial loads, shared residential wells, and will be optional for customers served under Schedule 2A who apply in writing for service under this Schedule. Service will be provided under this schedule if at least one of the following two conditions are met: 1) Customer's on-peak kW must be less than an actual 50 kW for at least 10 months during the previous 12 continuous months, or 2) customer's consumption must be less than an actual 15,000 kWh for at least 10 months during the previous 12 continuous months. All service shall be delivered at a single service location to be designated by the Company. Should the customer's consumption or demand exceed 15,000 kWh or 50 kW per month, respectively, for any three months in a previous continuous 12-month period, the service will be transferred to the General Power Rate Schedule 3B or 3C. The Company reserves the right to install metering equipment to determine whether this paragraph applies.

Small power customers switching from Schedule 2A to Schedule 2B and new small power customers requesting service under Schedule 2B will be placed on the Time-of-Day rate pilot option. As of January 15, 2024, Schedule 2B Time-of-Use rate option is closed to new customers.
