

RECYCLE YOUR OLD FRIDGE OR FREEZER.

Appliance recycling is easier than ever. Schedule a no-cost pickup and receive a \$75 rebate for each eligible refrigerator or freezer recycled.

Earn appliance recycling rebates.

PNM offers a convenient way to remove and recycle old, inefficient refrigerators and freezers. According to ENERGY STAR®, you can save up to \$260 per year on your energy bill by running more efficient ENERGY STAR certified models. Plus, you'll earn a \$75 rebate for recycling your outdated appliance.

Not only do the collected appliances stay out of the landfill, but after they're dismantled by recycling technicians, 95% of the materials (such as plastic, metals and glass) will be recycled.

Signs that it's time to retire and recycle your old refrigerator or freezer:

- Accumulation of ice
- Appearance of moisture
- Broken seal
- Heat generation
- Constantly running motor

Eligibility requirements:

- Applicant must be a PNM residential customer.
- Appliance must be a refrigerator or freezer.
- Refrigerators must be 10–30 cubic feet.
- Freezers must be at least 7 cubic feet.
- Appliance must be in working (cooling) order, empty, clean and plugged in at the time of pickup.
- Water line must be disconnected.
- Appropriate physical pickup address must be provided.
- Rebate will be mailed within six to eight weeks of appliance pickup.
- Residential customers dwelling in single-family homes are limited to two pickups. Different limits may apply for multi-family and commercial customers.

Miniature and commercially sized refrigerators and freezers do not qualify. Any freezer must be a standalone unit. PNM reserves the right to revise requirements and rebate levels at any time. Rebates are subject to availability.

This is not a replacement program. While we will collect the old appliance and issue the rebate, customers must purchase their own replacement appliance

Information needed to schedule:

- PNM account number
- Name on account
- Physical address
- Appliance information (appliance type, brand/model and cubic feet)
- Email address
- Phone number
