

CEI COHORT 1 FOR SCHOOLS

Wendell School District

Total program savings: 1,775,214 kWh=\$142,017 or 2,029 textbooks

CO2 savings: 746 metric tons

CO2 emissions saved from 141,234 gallons of gas or 145 homes' energy for one year

"Teachable moments...that's why we are in this business. Educating our staff, students and community members about energy savings is changing the world. Idaho Power is helping our district make a difference."

Jerome School District

Total program savings: 705,104 kWh=\$54,408 or 806 textbooks

CO2 savings: 296 metric tons

CO2 emissions saved from 56,097 gallons of gas or 57 homes' energy use for one year

"You cannot argue with the numbers. The program saves energy."

Pine Eagle School District

Total program savings: 164,369 kWh = \$13,150 or 188 textbooks

CO2 savings: 70 metric tons

CO2 emissions saved from 13,077 gallons of gas or 13 homes' energy use for one year

"Energy Savings is always a great talking point. This program caused our district to shift from talking about what was possible to what was accomplished."

Boise School District

Total program savings: 1,275,586 kWh= \$102,046 or 1,458 textbooks

CO2 savings: 536 metric tons

CO2 emissions saved from 101,484 gallons of gas or 104 homes' energy use for one year

"This program has helped us gain local, state and national recognition for our sustainability program."

Nampa School District

Total program savings: 4,276,954 kWh=\$342,156 or 4,888 textbooks

CO2 savings: 1,157 metric tons

CO2 emissions saved from 340,270 gallons of gas or 349 homes' energy use for one year

"This is the only bill that we have seen going down and that is due to the CEI Program. It has allowed the district to show a year over year reduction in power consumption."
