NOTICE OF PROCEEDING AND HEARING

NOTICE is hereby given of the following matters pending before the New Mexico Public Regulation Commission (“NMPRC” or “Commission”):

On May 10, 2019, Public Service Company of New Mexico (“PNM”) filed an Application and supporting direct testimonies in the above captioned case pursuant to section 62-6-12(A)(4) of the Public Utility Act. PNM seeks authorization to acquire the Renewable Energy Transmission Authority’s (“RETA”) 345 kV transmission project and associated facilities in eastern New Mexico (“RETA Project”). PNM states it will not include the estimated \$359.2 million cost of the project in the retail rates charged to New Mexico customers. PNM requests that the Commission enter a Final Order within five months, and in any event by November 6, 2019.

Specifically, PNM requests a Final Order that:

- Determine it is not unlawful and is not inconsistent with the public interest for PNM to purchase the RETA Project; and
- Provide the Commission’s written consent for PNM to purchase the RETA Project from RETA and Western Spirit Transmission, LLC under the BTA.

PNM’s Application states that the RETA Project will:

- Expand renewable energy production interconnected to the PNM grid by approximately 800 MW;
- Deliver renewable energy from the rapidly growing wind generation industry in eastern New Mexico; and
- Improve the reliability and availability of PNM’s electric transmission system, at no cost to retail customers.

PNM’s Application further states that, under the terms of the sale, PNM will acquire the RETA Project when the project is completed and becomes operational for an acquisition price of \$359.2 million.

PNM states that PNM will not include the acquisition cost of the RETA Project in retail customers’ rates. PNM also states that a Certificate of Public Convenience and Necessity is not required under the terms of the RETA Act because PNM is acquiring the project and retail customers will pay none of the costs for the transmission line, related facilities and interconnection to PNM’s existing network transmission system.

PNM states that the Commission is authorized to promptly investigate applications to acquire operating units of a utility’s system. PNM also states that the Commission shall give its consent and approval of the proposed acquisition unless it finds that the “proposed transaction is unlawful or is inconsistent with the public interest.” The sale and transfer of the RETA Project facilities to PNM once they are completed is therefore contingent on PNM’s receipt of necessary regulatory approvals.

Further information regarding this case can be obtained by contacting PNM or the Commission at the addresses and telephone numbers provided below. The Commission has assigned Case No. 19-00129-UT to this proceeding and all inquiries or written comments concerning this matter should refer to that case number.

The present procedural schedule for this case is as follows:

- PNM shall file supplemental testimony by June 10, 2019 on issues set forth in the Procedural Order issued on May 30, 2019.
- On or before July 23, 2019, any person desiring to intervene to become a party (“intervenor”) in this case must file a motion for leave to intervene in conformity with NMPRC Rules of Procedure, 1.2.2.23(A) and (B) NMAC.
- Staff and any intervenor testimony shall be filed by July 23, 2019.
- Rebuttal testimony shall be filed by August 6, 2019.
- A public hearing shall be held beginning on August 13, 2019, commencing at 9:00 a.m. in the Ground Floor Hearing Room of the Commission, P.E.R.A. Building, 1120 Paseo de Peralta, Santa Fe, New Mexico, and continuing on August 14, 2019, as determined necessary. Any motions to vacate the hearing due to the lack of contested issues shall be filed by August 9, 2019.

The procedural dates and requirements of this case are subject to further order of the Commission or Hearing Examiner.

The Application, together with supporting pre-filed direct testimony and any attachments and related papers, may be examined by any interested person at:
