Moving? We can help start, stop or transfer service

Moving can be stressful, but getting your electric service figured out doesn't have to be. Start, stop or transfer your service right on the PNM website.

Move In/Start Service: Start your service if you are new to PNM or need to turn on service at a new address, such as a rental property, for the first time.

Transfer Service: You can transfer service from one address to another as long as they are both served by PNM.

Move Out/Stop Service: If you're not moving to another location served by PNM, you can cancel your service.

Check with PNM to maximize savings and rebates

Check with PNM - PNM wants to help you save energy and money throughout your home. If you are looking to improve some appliances throughout your house, PNM wants you to check with us.

Visit **[checkwithpnm.com](https://www.checkwithpnm.com)** and let the energy experts help guide you to find energy efficiency appliances and utilities that work best for you and that helps you maximize savings and rebates.

Evaporative Cooling Discounts and Rebates - It is still hot in New Mexico. Stay cool and don't sweat the cost with PNM Evaporative Cooling Discounts and Rebates. The PNM Cooling Rebate Program reduces the cost for residential customers to purchase and install certain energy efficient cooling equipment in their homes. Instant Discounts and rebates are available for qualifying evaporative (swamp) coolers, room air conditioners, and evaporative window units.

For more information about the PNM Cooling Rebate Program, visit **[PNM.com/coolrebate](https://www.pnm.com/coolrebate)**

Tickets must be purchased in multiples of two. Offer is subject to availability in Reserved Level seating and only valid for specified dates. No upgrades apply. Schedule is subject to change.

PNM and community save baby Great Horned Owl

After falling over 50 feet from its nest to the ground, neighbors living near the Rio Grande Park in Albuquerque pulled together to save a Great Horned owl in early May. PNM Crew and environmental services colleagues were among those that teamed with the neighborhood to help rehabilitate and put the baby owl in the best place to survive.

Through guidance from non-profit Wildlife Rescue, neighbors placed the baby owl in a makeshift laundry basket nest on the same Cottonwood tree, which would put the owl in the best place for its parents to find and feed it. Owls are nocturnal and see best in nighttime settings. Because the tree was near a streetlight, the Albuquerque Parks and Recreation Department collaborated with PNM to temporarily switch the power off so the owl parents could locate and feed its baby in the nighttime.

This measure was a success. Since then, the owl parents have been able to locate and feed the owl.

Next to the 280 species of birds that call the Middle Rio Grande area home, Great Horned owls live, hunt and care for their young in the Albuquerque area Bosque (riverside forest). Working with government and non-profit partners like Wildlife Rescue and Hawks Aloft, PNM looks for every opportunity to help protect and improve bird habitats.

PNM, UNM create opportunities for college students

PNM and The University of New Mexico Anderson School of Management announced a partnership focused on facilitated student internships, student projects, and regional innovation that will provide equitable opportunities for college students to work in diverse workplaces, solving real-world challenges. PNM will expand the program by creating a coalition of businesses throughout the state, increasing the New Mexico economy by helping keep skilled New Mexico college graduates employed in state.

Our solid partnership with The University of New Mexico Anderson School of Management paves the way for forming a coalition of businesses all over New Mexico to help college students with their long-term career success and increasing economic development by supporting New Mexico businesses with local skilled workforce. Working together to create increased access to quality education and local job opportunities is critical to New Mexico's future.

To participate in this program, students must be enrolled in the UNM Anderson School of Management and can apply for the internship through Handshake, UNM's campus-wide online job and internship database. Students can also reach out to Anderson's internship coordinator at molok@unm.edu for more information. The internships in this program offer earned credits and are paid.

For more program qualification details, visit jobs.mgt.unm.edu/for-students/internship-for-credit-101.asp

Budget Billing

Budget Billing gives you more predictable energy bills by balancing seasonal high and lows, taking the guesswork out of your monthly bill. Once signed up, you'll pay a similar amount every month – making budgeting and planning much easier.

You still pay for the energy you use, but your total costs are spread evenly throughout the year. Budget Billing amounts are evaluated twice a year, usually in February and August, and may go up or down based on your actual usage and updated energy costs.
