PNM Reduce Your Use Grants

CALL FOR GRANT APPLICATIONS

Nonprofit organizations that want to complete energy saving projects are encouraged to apply for the PNM Reduce Your Use Grants starting Sept. 13.

Qualified organizations may receive up to \$5,000 to put their energy saving ideas into action. Previous recipients have used the grants to replace inefficient windows, upgrade lighting or replace older appliances.

Visit **PNM.com/community** for more information and grant requirements for applicants.

Storm safety

**Severe storms can occur any time of year.
Be prepared for storms and know how to stay safe.**

- Stay away from downed or sagging power lines. Consider them and anything touching them energized and dangerous! Call PNM immediately at 888-DIAL-PNM.
- Keep children and family pets away from areas where lines may have fallen.
- Prepare an outage kit for your home or business with water, non-perishable food, flashlights, batteries, and first aid supplies.
- Have a plan to move yourself and your family, to an alternate location in case you experience an extended power outage.

Report an outage by calling 888-DIAL-PNM or online at PNM.com/outage

past 6 years by PNM and
the PNM Resources Foundation.**

PNM is leaving coal in the past. So what's next?

Coal has provided affordable, reliable energy to New Mexico for decades. The downside of coal is greater emissions and higher fuel costs. In an effort to lead the nation in reducing emissions, PNM is transitioning away from coal.

PNM has filed for the closure and replacement of its coal-fired San Juan Generating Station. The proposal replaces coal-fired generation with renewable resources and cutting-edge technologies, and if approved by the New Mexico Public Regulation Commission, can lower residential customer rates and meet the reliability requirements placed on utilities by the Federal Energy Regulatory Commission and the North American Electric Reliability Corporation.

2019 Solar Car Races

Hundreds of Native American students put their design and engineering skills to the test as part of the 25th Annual PNM Solar Car Races in May at Explora.

Students from around New Mexico worked for weeks with PNM engineers to design, build, and test solar-powered model cars. Student teams built 60 solar cars, with the top 24 power-packed cars making it to the race finals. The top cars from each school were judged on aesthetics, design, and speed.

This year, the PNM Solar Car Races were forced inside because of inclement weather. But students were still able to compete with a 9-volt battery. The final race came down to "Lightning" from Tesuque Pueblo and "Mr. Jet" from Cochiti Pueblo. Lightning was able to come out on top.

The PNM Good Neighbor Fund

The PNM Good Neighbor Fund helps income-eligible customers who are experiencing extreme financial hardship by paying part or all of a past-due electric bill, depending on how much is owed. Last year, the program helped more than 3,698 families with more than \$461,000 in PNM Good Neighbor Fund assistance.
