Talk to us.

1 How an Evaporative Cooler Works

A simple example is the cooling you feel when stepping out of a swimming pool—the water evaporates quickly from your body, taking heat with it. Evaporative coolers do essentially the same thing by drawing hot air through wet pads using a fan or blower. As water evaporates from the pads, it takes heat from the air with it, resulting in up to 25 degree cooler air being discharged from the unit.

2 Energy Savings

An evaporative cooler consumes only one-fourth of the electricity of a refrigerated air conditioning unit.

PNM EVAPORATIVE COOLER MAIL-IN REBATE

PNM Energy Conservation Measure Rebate Program: PNM residential customers are eligible to get \$100 or \$300 back from PNM when they purchase and install an eligible evaporative cooler (the "Energy Conservation Measure"). This rebate is good for purchases made January 1, 2018 through December 31, 2018 or while rebate funds are available for this program. **Limit two (2) rebates per PNM residential electric customer account.** By participating in this PNM rebate program, customers agree to and acknowledge the Rebate Program Disclaimer of Warranties and Waiver and Release of Liabilities, which can be viewed in full at PNM.com/coolrebate or by requesting a hard copy from PNM by calling (877) 883-1754.

Please include:

A copy of your dated sales receipt or contractor invoice showing the manufacturer, model number and price of the evaporative cooler purchased

A copy of a recent PNM Residential electric bill

Incomplete information will delay or disqualify your rebate. Allow 4–6 weeks for rebates to be processed

To expedite the redemption process, complete the rebate form electronically by visiting PNM.com/coolrebate.

All rebate requests must be postmarked no later than December 31, 2018.

Mail To: PNM Cooling Rebate

P.O. Box 2528
Manchester, CT 06045

Please fill the form below out completely. All information is required.
