

The **orange** shaded area on this map represents the potential impact area if PNM implements a Public Safety Power Shutoff (PSPS). PNM customers in this area could experience a temporary loss of power if PNM implements a PSPS. As forecasts become more precise closer to the weather event and PNM is able to identify specific, high-risk lines that should be de-energized, this impact area may be reduced.

All PNM customers - within or outside an HFRA - could be impacted by weather-related outages. View and Report outages at [PNM.com/outage](https://www.pnm.com/outage).

Public Safety Power Shutoff (PSPS) Impact Area Santa Fe High Fire Risk Area (HFRA)
